Vragen

Cursus

De leerdoelen van de cursus waren duidelijk.

Schaal: TIU Antwoordschaal | σ 0.8 | Aantal keer ingevuld: 27

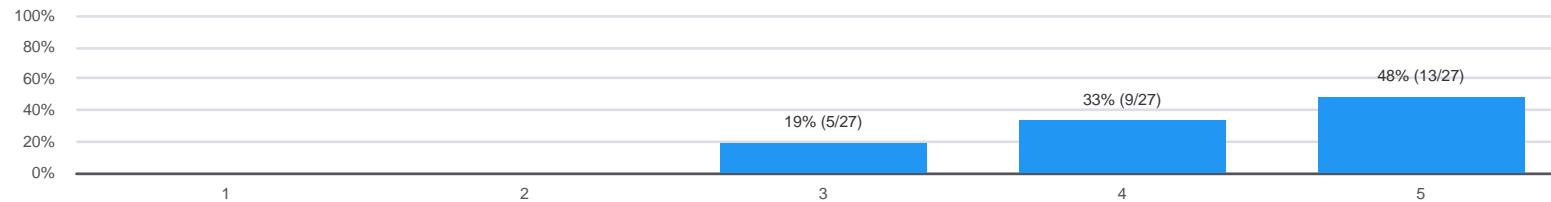

4.4

Het was duidelijk wat ik moest doen ter voorbereiding en ter verwerking van de colleges.

Schaal: TIU Antwoordschaal | σ 0.8 | Aantal keer ingevuld: 27

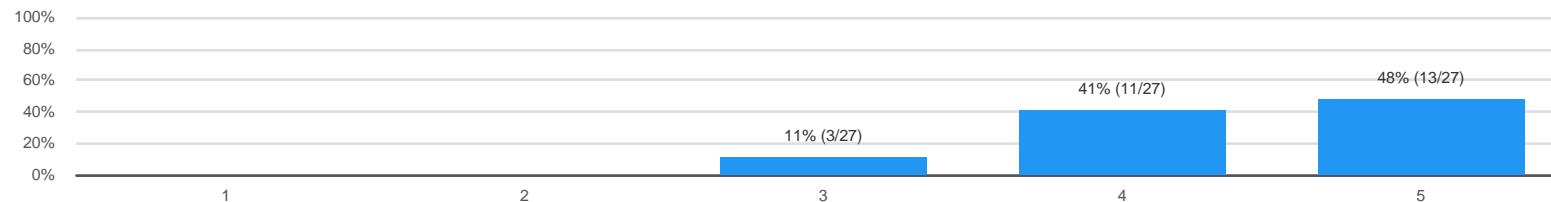

4.3

Het studiemateriaal (bijv. literatuur, oefeningen) hielp me de leerdoelen te bereiken.

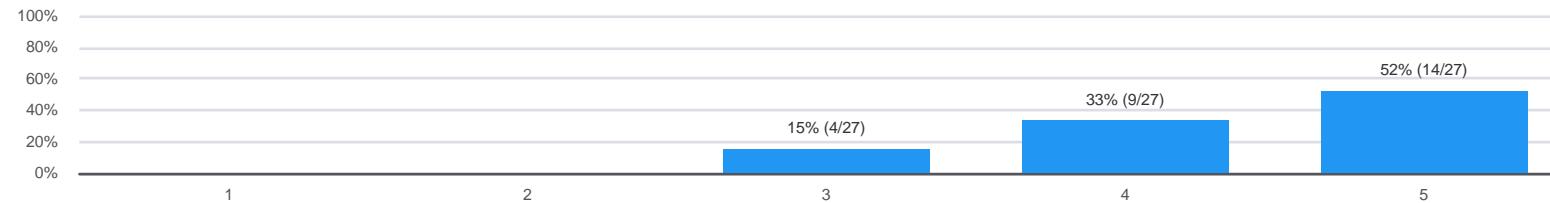

Schaal: TIU Antwoordschaal | σ 0.7 | Aantal keer ingevuld: 27

4.4

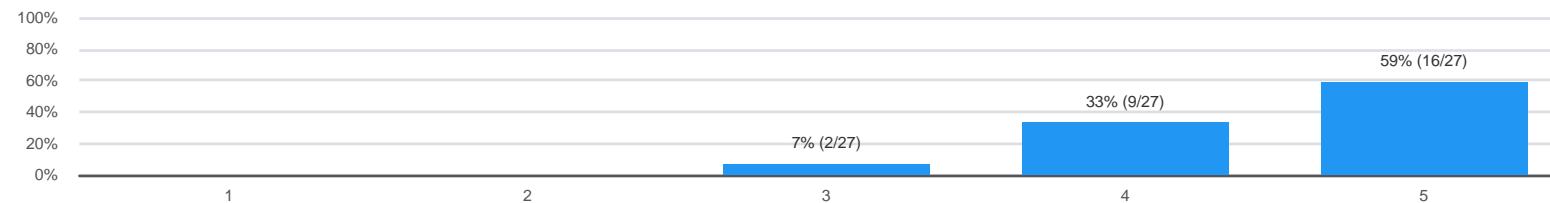

Ik vond de Canvasomgeving goed ingericht.Schaal: TIU Antwoordschaal | σ 0.7 | Aantal keer ingevuld: 27

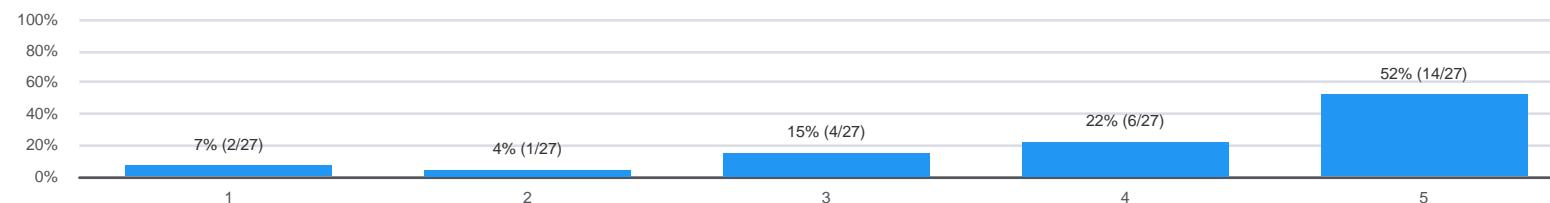

4.4

**Ik vond de communicatie over de toetsing duidelijk.**Schaal: TIU Antwoordschaal | σ 0.6 | Aantal keer ingevuld: 27

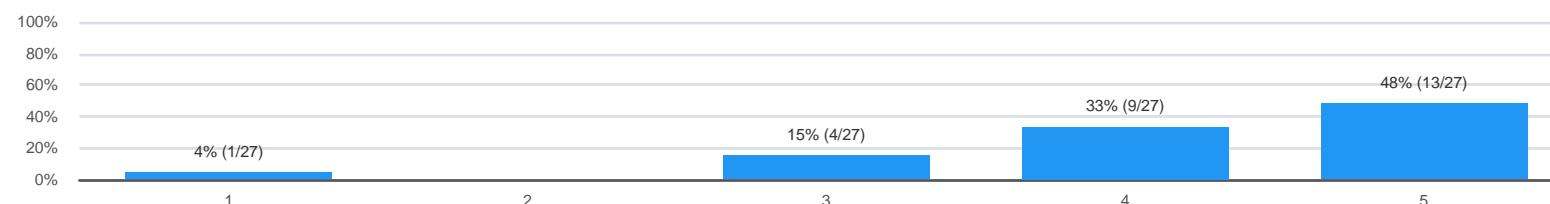

4.5

**Ik vind dat ik bij aanvang voldoende kennis had om deze cursus te kunnen volgen.**Schaal: TIU Antwoordschaal | σ 1.2 | Aantal keer ingevuld: 27

4.1

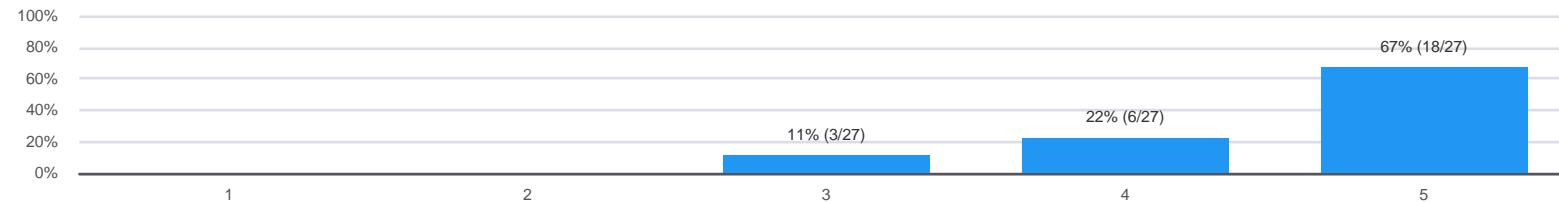

**Ik vind dat ik bij aanvang voldoende vaardigheden had om deze cursus te kunnen volgen.**Schaal: TIU Antwoordschaal | σ 1 | Aantal keer ingevuld: 27

4.2

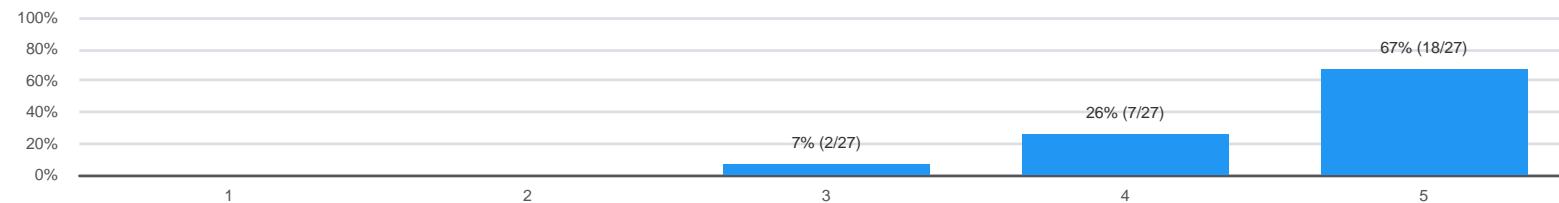

Ik heb nieuwe kennis opgedaan tijdens deze cursus.Schaal: TIU Antwoordschaal | σ 0.7 | Aantal keer ingevuld: 27

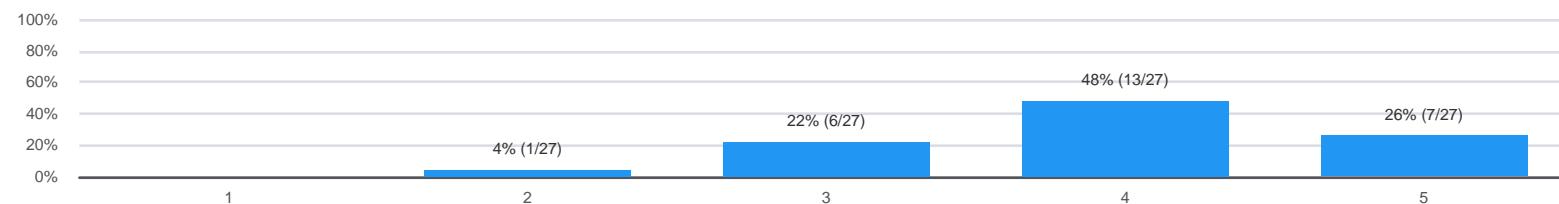

4.6

**Ik heb nieuwe vaardigheden opgedaan tijdens deze cursus.**Schaal: TIU Antwoordschaal | σ 0.6 | Aantal keer ingevuld: 27

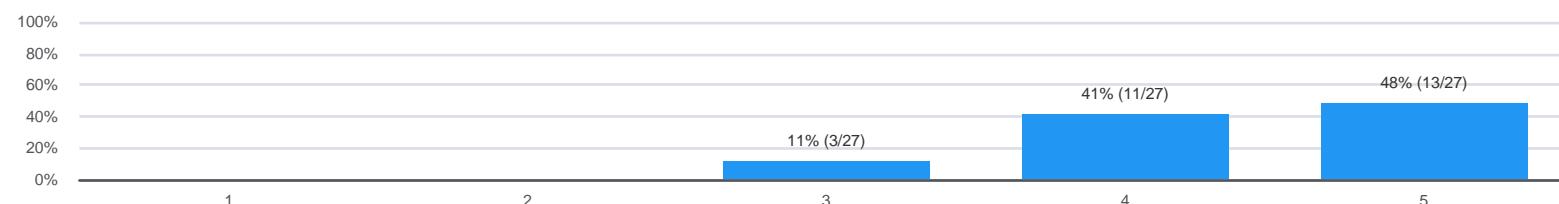

4.6

**Ik heb in deze cursus mijn academische houding (verder) ontwikkeld (zoals intellectuele onafhankelijkheid, kritische mindset, sociale en wetenschappelijke verantwoordelijkheid, ondernemende houding).**Schaal: TIU Antwoordschaal | σ 0.8 | Aantal keer ingevuld: 27

4

**Over het algemeen ben ik tevreden met de onderwijskwaliteit in deze cursus.**Schaal: TIU Antwoordschaal | σ 0.7 | Aantal keer ingevuld: 27

4.4

Wat vond je goed aan deze cursus?

Schaal: Open vraag | 27 antwoorden van totaal 27 respondenten | Aantal Niet van toepassing: 11

1. The difficulty of exercises during the lectures and tutorials are a proper representation of the exam difficulty.
2. A numerous amount of resources to prepare fully for the exam were provided. The slides were very well organised and easy to follow.
3. The tutorial teacher explained everything very well.
4. Fatih is an excellent lecturer, who made the otherwise dry material incredibly fun and engaging to follow. The material in general was explained well in "layman's terms" and made easy to follow even for people who did not have statistics in high school.
5. The course sets good foundation for the future
6. The lecturers did a great job with making the lectures interactive. I also found it very nice that every lecture we would do some exercises from the book together. This really made the course material more clear.
7. For both parts, I liked the repetititon at the beginning of the lecture. Also the teaching style of the first part was highly interactive which was helpful.
8. Course structure was easy to follow and everything about the subject is clear to me after finishing the course.
9. I think the explanation was really well and in depth. Just a bit disappointing that you cannot watch the recordings in time if you missed a lecture or two since they are really helpful. As someone who'd been sick there was a lot of catching up to do without recordings to watch back.
10. Both lecturers did a good job of explaining the content, they gave summaries at the beginning of the lectures and emphasized the difficult parts of the material.
11. The lectures were really clear
12. Both professors break concepts down to the very basic so it's easy to understand
13. The way the problems were explained
14. Professors and TA's were pretty helpful and course structure had a flow, so i could keep up easily even in cases i had to miss a lecture
15. The lecturer was very attentive and explained the material well. The tutorial teacher also did his job.
16. Communication between students and professors.
Professors' moderate approach to students

Wat kan er volgens jou verbeterd worden aan deze cursus?

Schaal: Open vraag | 27 antwoorden van totaal 27 respondenten | Aantal Niet van toepassing: 15

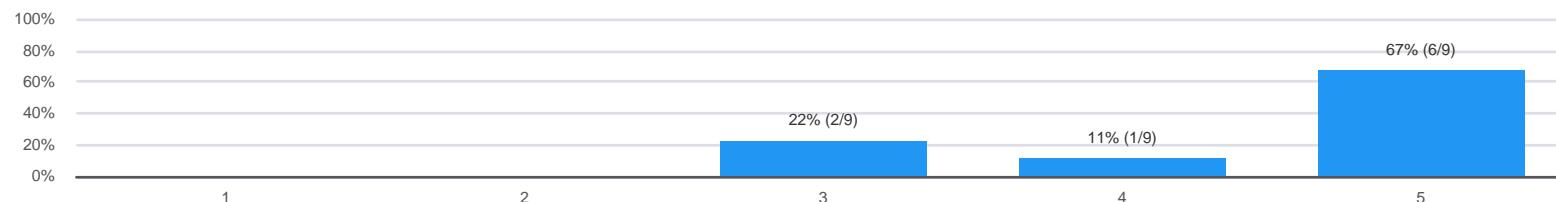

1. I think that encouraging students to come up to the board and solve a question from the tutorial questions would benefit everyone.
2. The pace of the lectures at times were like a lullaby. Professor Lazzaretto is an extremely smart man, who does not seem motivated to teach this course at all.
3. More energy/positivity from the lecturer, he seems very tired which reflects on the class
4. Give a overview of the week just as in Finance or Accounting. Sometimes include more info how we will later on use what we have studied in future jobs etc.
5. Presentation material in the 2nd half of the course wasn't easily understandable.
6. Recordings made available!
7. The notes uploaded on canvas from the 2nd part of the course
8. Explain more clearly the purpose of learning some of the theoretical concepts
9. More focus on exam-like material
10. Some classes about sample statistics were very confusing
11. Especially in the second part of the semester, i would like the examples given to explain the theory to be more broad and provide direct applications to the exam excercises
12. It is perfect the way it is.

Ik kon de uitleg van de docent goed volgen.Schaal: TIU Antwoordschaal | σ 0.4 | Aantal keer ingevuld: 9

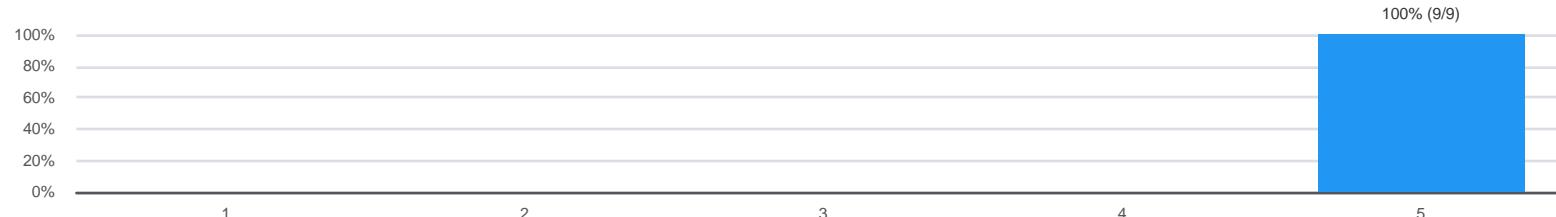

4.8

**De docent stimuleerde me om actief na te denken over de leerstof.**Schaal: TIU Antwoordschaal | σ 0.8 | Aantal keer ingevuld: 9

4.4

**De docent faciliteerde een sfeer van respect tussen de studenten onderling en tussen de docent en de studenten.**Schaal: TIU Antwoordschaal | σ 0 | Aantal keer ingevuld: 9

5

**In mijn ervaring was de studielast van de cursus in vergelijking met het aantal studiepunten (Opmerking: 1 EC staat voor 28 uur.)**Schaal: 1 t/m 5 (punten) Laag/Hoog | σ 0.9 | Aantal keer ingevuld: 27

3.8
